

CALLA LILY series SAHARA

The **SAHARA**, with its curling tribal patterns and its sleek, baton-shape, has been designed with the magnetism and inexplicable mystery of the Orient in mind. It soundlessly whispers to life in a murmur of its own, and in its secret symbols and convolutions lie the clues to unraveling the deepest mysteries. Once switched on and in use, the SAHARA recreates the rising heat and intensity of the Saharan day, the subtle and elusive mystery of the desert and, once the heat dies down, the blackness of a sky exploding with a million stars.

A beautifully designed, fully rechargeable pleasure device made with highest quality, 100% medical grade, hypo-allergenic, Phthalate Free silicone . All Plastic parts are made of medical grade approved ABS with soft touch finish. Surrounding the base is a petal-shaped plastic shield that glows with incandescent light, creating a luminous radiance in the room and disguising the lamp's true, sensual purpose.

	SAHARA	CRADLE
Electrical power	Rechargeable battery Li-ion 3.7V 850 ma/h	Input 5VDC Main 90-230VAC
Measurement	h= 197mm D= 43.5 mm	h= 205 mm W=126mm
Weight	200gr	140gr
Water resistant	fully protected	Not protected
5 vibration modes	✓	NR
Biocompatible Materials	✓	✓
Electronics ROHS Compliance	✓	✓
Powerful and quiet motor	✓	NR

* Tubular Packaging: D = 145 mm h = 280 mm
